

CONDUCT A CASTING CALL FOR NEW EMPLOYEES

The Pittsburgh Technology Council presents CareerCasts...the link between regional employers and job seekers. CareerCasts are recorded, interactive interviews with southwestern Pennsylvania's top tech companies and HR professionals discussing unique aspects of their business and operations. Audio interviews using Pittsburgh-based TalkShoe technology provide on-the-go availability to job seekers and a high-tech tool for employee recruitment and retention. All Casts are archived for easy access, so be sure to visit the CareerCast site often.

How does an easy hire sound? It definitely sounds better with the Pittsburgh Technology Council's CareerCasts. These interactive podcasts, valued at \$250, allow employers the chance to share key information with job seekers beyond the standard job description. Share what your corporate climate is like, identify the types of people you are looking to hire, identify open positions and discuss career growth potential -- all from the comfort of your own desk chair and in less time than it takes to get lunch. CareerCasts target active job seekers in the Pittsburgh region, and beyond. Don't just tell people your company is high-tech. Prove it...with Council CareerCasts.

Career Casts

Careers in high fidelity.

HOW MANY EMPLOYEES ARE THERE?

WHAT MARKET DOES YOUR BUSINESS SERVE?
